

Dear Gentlemen of RCOBECA,

First of all let me congratulate you on your successes for the past 16 years, and thank you for the help rendered to your old school during this period. The support of the Old boys are vital for the running of this great institution , as the Government grant is barely sufficient for the day to day running of the school. As you know we are trying very hard, despite many obstacles, to make real men, or what you would call gentlemen, out of the children that arrive at College. This needs dedication, skill, finances, as well as moral and other support from the staff, parents, as well as the Old Boys.

I am indeed grateful to RCOBECA for the continuous support extended to your old school .

My Dear sons of Royal,

Even from these far away shores of great U.S.A. ,you have brought credit to Royal. It is indeed heartening to note that countries as far away as the United States of America has benefitted from Royal College. Each one of you is an ambassador of Sri Lanka and of Royal College .Together, let us make this world a little better place than how we found it, when we arrived here.

Gentlemen of Royal College,

Let me congratulate you once again on your achievements.

May I also take this opportunity to thank on behalf of Royal College, the outgoing office bearers, for all the good work done, and to wish the incoming office bearers all the success,

Thank You

Upali Gunasekara
Principal
